

# LINT CLEANER FOR ROLLER GINNED COTTON

- Cleaner charged with freshly ginned Cotton-Lint by belt conveyor
- Pin beater opens out the lint and spiked cylinder with Knife-edge grids gently and effectively removes seed-coats, dust and trash in lint
- No saws and hence no possibility of fibre damage
- System design allows bypassing of Lint Cleaner whenever desired
- Trash collects in Trash Chamber for subsequent disposal
- Rugged construction and sealed bearings throughout ensure long life and less maintenance
- Alternative cleaner charging system with condenser may be improvised to suit plant layout

## MODEL - 'NRGLC'
